New global knowledge project

the lab

Market Systems Development for Decent Work

So far...

Ongoing: Discussions with the new BEAM Exchange

Completed: Lit review on the labour market impact of value chain development interventions

Upcoming: Presenting at the SEEP Network's Annual Conference

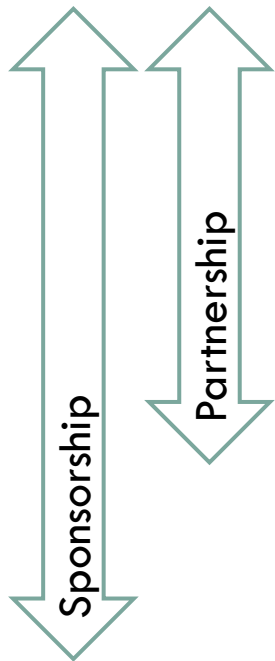

Completed: Ran Evaluation Clinic (from Fund for Evaluation) and supported DCED Global Seminar

Upcoming: Working with SCORE to deepen impact in targeted sectors

Ongoing: Investigating the 'business case' for improving working conditions in the building construction sector

Ongoing: Testing theory-based approach to impact assessment, new ways of measuring job improvements

Looking to...

- **Collaborate**
 - Projects working in value chains/market systems/sectors, who are looking to understand their employment impact
- **Conduct**
 - Action research (job-focused market systems analysis, add-on interventions addressing working conditions), innovative results measurement (theory-based methods, DCED Standard)
- **Co-fund**
 - From theory to action – doing and documenting

Produce: case studies, 'shareable' impact measurement manuals, tools for practitioners, publications (beyond the numbers...)
